

Design Engineer—Sawmill Machinery

SALEM EQUIPMENT, INC. located in Sherwood, OR is a wholly owned subsidiary of Wellons Inc. and a leading manufacturer of a wide range of premium sawmill machinery since 1946.

Salem continues to look for new and better ways to serve our lumber producing customers with solutions that help them reach and exceed their operating goals. Salem Equipment is a global supplier to the wood processing industry, with a primary customer base in the US & Canada, as well as some in Europe and South America. We strive to provide value added solutions for our customers and assist them in producing quality wood products for the end user.

As a result of our desire to innovate and an upsurge in customer project activity, we are looking for a fulltime **Design Engineer** with 7 + years' experience in machine design and customer service, to join our Engineering Department. For this position, you will need to have the intellectual curiosity to innovate and the desire to create new and revise existing products. Your creativity and drive are what will help us maintain and strengthen our brand in the marketplace.
